## Solving the Y2K problem with a web based solution, "The Fairview Experience"

Judy Pechacek RN, MS

The presentation will describe the implementation experiences, lessons learned, and next steps for Fairview's a web based results reporting system.

Judy has been a nurse for the over 20 years and a Fairview employee for the last 10 years. She has served in many capacities: clinical nurse specialist for the cardiac population, director of the clinical pathway program, nurse manager of critical care, telemetry and med-surg and most recently project lead of the Abaton Application and Director of Clinical Systems for Fairview. Judy has a Masters degree in Nursing with an emphasis in administration and change management

## Fairview's EMC DASD Farm

Joe Patri and Larry Flagg

Fairview's use of EMC's disk subsystem for the Mainframe has expanded to a number of Open platforms (HP, DEC, RS6000, NT). Joe Patri and Larry Flagg will talk about the backup/recovery of Open systems, using products from BMC, FDR and EMC. These tools allow the

Open systems to have backup/recovery processed to the Mainframe Tape Library system.

Joe Patri has been providing the technical support for Fairview's Mid-Range systems for the past 9 years, and has been the Manager of this area for one year.

Larry Flagg has been in Mainframe technical support at Fairview for 27 years, and has been the Manager of this area for 20 years.

## Parking

Parking is available in the Red parking ramp located on the Riverside ramp located on Riverside Avenue between 23rd and 24th avenue and in the Yellow ramp north of the HealthPartners Riverside Clinic. The Blue and Green surface lots are also available.
