

The Minnesota Chapter of HIMSS will be hosting a professional education seminar at Hennepin County Medical Center. Following this years chapter theme "Meet your peers in '99", participants will have the opportunity to meet with Systems and Information Management personnel from HCMC and see first hand how they utilize information technology. HCMC personnel responsible for the systems and projects will present three topics and will be available for question and answers afterwards. A lite dinner will be provided by Shared Medical Systems.

Agenda

- 5:15 - 6:00 registration, lite dinner, social time
- 6:00 - 6:30 ATM network infrastructure
Tom Loch/Zarina Baber
- 6:30 - 7:00 EMSTAT automated emergency room system
Marsha Zimmerman
- 7:00 - 7:30 IRIS electronic medical record
Ray Gensinger, M.D.
- 7:30 - 8:00 Tours
- 8:00 - 9:00 Network, dessert & coffee

Location:
Hennepin County Medical Center
Pillsbury Auditorium
701 Park Ave
Minneapolis, MN 55044

ATM Network Infrastructure

Zarina Baber is the supervisor and project manager for the Clinical Systems group of the Systems Management Division of Information Services at Hennepin County Medical Center (HCMC). The Clinical Systems group is responsible for project management, maintenance, support and implementation of new clinical systems.

She obtained a Bachelor of Science in Business from Carlson School of Management, University of Minnesota in June of 1991. Zarina has been with HCMC for the past 7 years.

Tom Loch is supervisor of the PC/Server group of the Systems Management Division of Information Services at HCMC. Tom has a degree from the University of Minnesota. He has been an IS professional for 33 years and has been with HCMC for past 10 years. His group is responsible for workstation support and server administration.

Zarina and Tom are co-leaders for the ATM network project.

IRIS Electronic Medical Record

Ray is the Senior Associate Medical Director at Hennepin County Medical Center. He is also a general internist in the Department of Medicine and holds appointments as an Assistant Professor of Medicine. Dr. Gensinger works closely with the CIO and focuses on clinical support of all information systems at Hennepin County

Medical Center. Dr. Gensinger obtained at Bachelors degree in biology from Illinois Wesleyan University, Later he attended Southern Illinois University for his medical school, internship, and residency. After residency, Dr. Gensinger served as Chief of Residents in Internal Medicine, followed by two years on the clinical faculty. In 1994 part of his time was spent at Baylor College of Medicine pursuing post-doctoral studies in Medical Informatics.

EMSTAT Automated Emergency Room System

Marsha Zimmerman has been employed at HCMC for 26 years, 19 of them as a nurse. She has been the Emergency Department Clinical System Coordinator in charge of the EmSTAT project since fall of 1991. Marsha has a Masters degree in Human Resource Development and Training in Healthcare from the University

of St Thomas in addition to her nursing degree and an undergraduate degree in social work.

Marsha is currently the co-editor of an Informatics column for the Journal of Emergency Nursing as well as a member of the national Emergency Nurse's Association Vision Council on Technology. She speaks several times a year at national conferences on Emergency Department system implementation. She is also a core trainer for the use of MS Access and Oracle for data retrieval for other EmSTAT sites. Marsha has been published in several healthcare journals.

All speakers will be available after their presentations for questions and answers.
